

Wednesday Oral Presentations			
Time	Name	Company/University	Title
8:00am	D. Osterlund / R. Richards	WTGS	Opening Remarks
8:15am	Art Berman	Labyrinth Consulting	Keynote Speaker
9:15am	Stephanie Gaswirth	USGS	An Update on the U.S. Geological Survey's Assessment of Undiscovered Continuous Resources in the Midland and Delaware Basins
9:40am	Amanda Ulincy	Oxy	Predictive Well Performance Mapping for the Delaware Basin, SENM
10:05am	Break		
10:25am	Mike Kuykendall	Felix Energy	Hydrocarbon Potential of the Wolfcamp and Bone Spring along the Eastern Margin of the Delaware Basin: Ward, Winkler, and Loving Counties, Texas
10:50am	David Schwartz	CGG	Non-traditional Methods Applied in an Unconventional Basin
11:15am	Ted Urbancic	ESG	Unlocking the potential of microseismic monitoring for hydraulically fractured tight reservoirs: A Perspective View
11:40am	Marilyn Gruebel	NM State Land Office	New Mexico State Land Office: Connecting with King Permian
12:05pm	Lunch		
1:30pm	Mark Robinson	Texas Water Dev. Board	Brackish Groundwater in the Lipan Aquifer Area, Texas
1:55pm	Bob Lindsay	Lindsay Consulting	Grayburg Formation Sequence Stratigraphy and Lithofacies Distribution, Permian Basin
2:20pm	Ben Byerly	Energen	Midland Basin: Deep SWD Wells
2:45pm	Break		
3:15pm	Mihai Vasilache	SCAL	Lower Shale Porosities are Better
3:40pm	George Asquith	TTU	Application of the CMR/NMR Log in the Analysis of Unconventional Reservoirs
4:05pm	Sandeep Mukherjee	Halliburton	Integrating Multidisciplinary Workflows for Precise Characterization of Unconventional Reservoirs
4:30pm	Mark Hendrix	AIM GeoAnalytics	Using Confocal Microscopy to visualize 3D pore networks
4:55pm	Jonathan Collier	Energen	Fracture Comparisons from Vertical and Horizontal Wells: a View from the FMI.
5:20pm	Icebreaker		
Thursday Oral Presentations			
Time	Name	Company/University	Title
8:00am	Joseph Dominguez	CGG	Post Stack Attribute-Based Fracture Characterization: A Case Study from the Permian Basin
8:25am	Joe Beck	Energen	Midland Basin Image Log Comparison from Three Parallel Horizontal Boreholes Integrated with a Geomechanical Study
8:50am	Richard Erdlac	Erdlac Energy Consulting	Beyond Alpine High - Structure/Tectonics in the Delaware Basin: A More Complex View
9:15am	Farhan Alimahomed	Schlumberger	Resurrecting the San Andres Play - Observations and Challenges in Horizontal Wells on the CBP
9:35am	Steve McClaine	Hickman, McClain and Assoc.	Reserve Forecasting for Unconventional Oil Wells in the Midland and Delaware Basins
10:00am	Break		
10:20am	Bob Trentham	UTPB	The Upper Leonardian on the Central Basin Platform. From ROZ's to Maximum Floods.
10:45am	Andrew Pepper	This Is Petroleum Systems	Pre-Cambrian to Neogene Tectonic History and Petroleum Systems in the Permian Basin of West Texas and New Mexico
11:10am	Xavier Janson	UT	Mixed Carbonate-Siliciclastic Slope Sedimentation in a Foreland Basin (Lower to Middle Permian, Southern Delaware Basin, Texas)
11:35am	Graham Soto-Kerans	UT	Sediment-Routing Reconstruction and Provenance Analysis of Syn-Orogenic Basin Fill, Permian (Guadalupian) Strata, Southern Delaware Basin, West Texas
12:00pm	Ethics Lunch		
1:30pm	Core Workshop		
Poster Presentations			
Time	Name	Company/University	Title
Wed AM	Olfa Zened	Schlumberger	Uncovering the Potential of the Permian Basin using Advanced Applications of Borehole Images
Wed AM	Leslie Williams	ASU	Detailed Mapping of Leonard Mountain, Glass Mountains, West Texas
Wed AM	Kendra Myer	UTPB / Anadarko	Depositional Environments, Diagenesis, Cyclicity, and Facies Distribution of the Abo Formation, Billy (Abo) Field, Lamb County, Texas
Wed PM	Taylor Newton	ASU	Geologic Mapping in Northern Sand Springs and Southern Stillwater Range, Nevada Leads to a New Sequence of Events
Wed PM	Holt Stephens	UTPB / Chevron	Proposed Correlation of San Andres High Frequency Sequences Across the Northwest Shelf of Texas and New Mexico
Wed PM	Mike Carmona	UTPB	The Impact of Post Oil Emplacement Tectonics of the Delaware Mountain Group, with an Emphasis on ROZ Potential
Thurs AM	Darren Garcia	ASU	Detailed Mapping in Eastern Brewster County, Texas
Thurs AM	Robert Schoen	SF Austin	Geology of the Northern Alto Relex Area, Sierra del Carmen, Big Bend National Park, Brewster County, Texas
Thurs AM	Shibu Arens	AIM GeoAnalytics	Using Confocal Microscopy to Visualize 3D Pore Networks
